**End Application:**

Special aircraft and engine tool and support equip/parts

**Layer Thickness:**

0.500 inches all layers

**Product Name:**

Insulation, fiberglass

**Special Features:**

Thermal conductance, c equals 0.48 btu/hr at 75 degrees man temp. Meets nfpa 90aand b vendor part number; fiber glass duct liner 0.500 x 47.025 x 100

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T230-b
