Aircraft Thermal Insulation Blanket - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/1660-01-592-4296

End Application:
Special aircraft and engine tool and support equip/parts
Layer Thickness:
0.500 inches all layers
Product Name:
Insulation, fiberglass
Special Features:
Thermal conductance, c equals 0.48 btu/hr at 75 degrees man temp. Meets nfpa 90aand b vendor part number; fiber glass duct liner 0.500
x 47.025 x 100
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
