Overall Length:

21.250 inches

Overall Height:

7.010 inches

Overall Width:

17.000 inches

Pressure Rating:

300.0 pounds per square inch

Special Features:

Copper tubes; steel fins and manifolds; aluminum turbulators; high impact plastic fan assembly; 300 psi test pressure; 350 degrees f operating temperature; 3/4 inch tube size; 24 vdc; 6.3 amps; 2.1 gpm required oil flow; 2200 rpm fan speed; mounting brackets included

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
