Head Diameter:

Between 0.720 inches and 0.780 inches

Overall Length:

Between 3.610 inches and 3.730 inches

Handle Height:

Between 1.500 inches and 1.560 inches

Mounting Facility Quantity:

1

Features Provided:

Lock accommodation

Material:

Magnesium alloy az92a and magnesium alloy az63a or magnesium alloy az91c

Material Specification:

Qq-m-55, t4 federal specification 1st material response and qq-m-56, t4 federal specification 2nd material response or qq-m-56, t4 federal specification 3rd material response

Surface Treatment:

Dichromate

Surface Treatment Specification:

Mil-m-3171, type 3 military specification single treatment response

Style Designator:

L

Fsc Application Data:

Door, passenger aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A250a0

Mil-std (military Standard):

Mil-m-3171 spec.
