Overall Width:

0.403 inches

Product Name:

Detail-track roller shaft

Special Features:

Material: per ams-5643, heat treat to h900 after mach, passivate per armco spec

Functional Description:

Hexagon shape, hole diameter: .332" diameter

Material:

Stainless steel

Surface Treatment:

Passivate

General Description:

Drill q (.332 dia) hole through thd 3/8-24 unf-3b through per mil-s-7742

Thread Size And Series/type Designator:

-3b unf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
