Detail Roller Shaft - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/1680-00-678-3992

Overall Width:
0.403 inches
Product Name:
Detail-track roller shaft
Special Features:
Material: per ams-5643, heat treat to h900 after mach, passivate per armco spec
Functional Description:
Hexagon shape, hole diameter: .332" diameter
Material:
Stainless steel
Surface Treatment:
Passivate
General Description:
Drill q (.332 dia) hole through thd 3/8-24 unf-3b through per mil-s-7742
Thread Size And Series/type Designator:
-3b unf
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
