Overall Width:

0.562 inches

End Application:

Servocylinder, aircraft hydraulic 1650000657694 p/n 2-43330-512

Bore Type:

Serrated

Center To Center Distance Between Link And Shaft Holes:

1.125 inches

Shaft End Thickness:

0.375 inches

Link End Hole Diameter:

0.1900 inches

Distance Between Fork Inside Spread:

Between 0.438 inches and 0.443 inches

Material:

Steel

Material Specification:

Mil-s-7720, comp 303 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A524p0

Mil-std (military Standard):

Mil-s-7720 spec.
