Major Diameter:

0.375 inches

Overall Width:

0.560 inches

Serration Quantity:

36

End Application:

Transmission, mechanical, aircraft 1650009304714 magk754-7

Minor Diameter:

Between 0.350 inches and 0.353 inches

Bore Type:

Serrated

Shaft End Thickness:

0.620 inches

Special Features:

Offset height: 0.380 in.

Material:

Steel

Surface Treatment:

Cadmium and chromate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524p0
