Bore Type:

Serrated

Center To Center Distance Between Link And Shaft Holes:

3.000 inches

Shaft End Thickness:

0.750 inches

Link End Thickness:

Between 0.710 inches and 0.750 inches

Link End Hole Diameter:

0.190 inches

Shaft Securing Method:

Spline

Material:

Magnesium alloy

Material Specification:

Qq-m-55, az92a-t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A524p0
