Terminal Type:

Connector

Temperature Rating:

-65.0 degrees fahrenheit and 165.0 degrees fahrenheit

Current Type:

Dc

Environmental Protection:

Any acceptable

Duty Cycle:

Intermittent

Stroke Length:

Between 17.185 inches and 17.195 inches

Braking Method:

Electric

Limit Switch Control:

Not included

Thermal Protector Reset Method:

Automatic

Manual Override:

Not included

Mounting Facility:

Rod end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30500
