**End Application:**

F-111a acft

**General Description:**

C/o36 screws; 6 nuts; 16 diodes; wire as required; 1 terminal installation; tape as required; 6 switches; sleeves asrequired; 5 splice; 4 spacers; 10 connectors; compound as required; 6 indicators; 8 washers; 2 board assemblies; 2 plates; 4 spacer assemblies; 3 plate assemblies; solder as required; plugs as required; 4 backshells; 2 clamps; 2 relays; 4 seals; 44 terminals; 2 board assemblies; 2 meters; 1 terminal assembly; 1 spacer, standoff; 4 nuts, cor clip-on; 8 plain flat washers; 1 toggle switch; 1 connector plug; 2 nuts, hex rdc; sealing plugs as required; 4 bushing seals; 1 flat head screw; 14 pan head screws; 5 flush head screws; 1 clamp; 1 receptacle connector; sealing compound as required; soldering for electrical/electronic connections per mil-std-454 req 5; sealing, dielectric, ofelectrical connectors per mil-s-8516 and components potting 0-65 degrees f to 180 deg.F; bonding, non structural, electrical and lighting protection; coating, conformal, for electronic assemblies per mil-i-46058

**Fsc Application Data:**

Control panel, aircraft

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
