End Application:

Kc135r aircraft

Functional Description:

Used on r5333-1 electrical actuator

General Description:

3.005 inches long; 0.2497 inch, 0.2500 inch diameter one end; 0.3140 inch, 0.3150 inch diameter other end; nitride per mil-s-6090 and s107 prior to pressing on 2012672-2 bushing; coat with corrosion preventive per mil-c-16173 grade 3; magnetic particle inspection per mil-i-6868 and s108 class 1b; silver braze with material per federal specification qq-b-654 grade vii

Fsc Application Data:

Aircraft accessory equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
