**Body Diameter:**

2.640 inches

**Body Length:**

15.800 inches

**Stroke Length:**

21.210 inches

**Tension Load Rating:**

3840.0 pounds operating

**Criticality Code Justification:**

Feat

**Special Features:**

Flap/slat actuation critical to operation of aircraft

**Fsc Application Data:**

C5a/b acft

**Reference Number Differentiating Characteristics:**

As differentiated by source control

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A30500
