End Application:

F-16 aircraft

Functional Description:

Used on 363c133-1; actuator, electrical-mechanical 363j100-1

General Description:

Heat treat 1025 plus or minus 15 degree for 4 hours; air cool, per g.D.Fps-3014, fscm 81755, hardness to be 155 k.S.I.Min.; material 1s 17-4ph steel, ams5643, condition a

Type/model Designation:

F-16b air combat fighter

Fsc Application Data:

Aircraft accessory equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
