End Application:

F-16 aircraft

Functional Description:

Part of 1685t100-5 actuator, electrical; used on 1647221-2

General Description:

Length is .994 inches; hole diameter on shouldered end is .312 inches; total diameter on opposite end is .3750 inches and .3745 inches ; material is 17-4 ph stainless steel

Type/model Designation:

F-16c air combat fighter; tail effectivi type 5c 0001 9999

Fsc Application Data:

Aircraft accessory equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
