End Application:

F-14 acft

Panel Material:

Plastic

Special Features:

Components include microcircuit, display, alphanumeric, four matrices of light emitting diodes, with logic, monostable multivibrator, dual precision retriggerable/resettable microcircuit, made of monolithic silicon, indicator, fault locating flag, mechanical reset, filter, radio frequency interference hermetically sealed, insulation sleeving, electrical, polytetrafluoroethylene resin, non rigid, connector mounting block, plug-in module, circuit card assembly-display, printed wiring board-display, circuit card assembly switch a/b, printed wiring board assembly switch a/b

Reference Number Differentiating Characteristics:

As differentiated by source control no.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T122-b
