Overall Length:

2.135 inches

Overall Width:

3.186 inches

Product Name:

Adapter-coupling, blower drive shaft

Special Features:

Aflange end has four holes 0.253 to 0.258 in. Dia.; holes are equally spaced on same bolt circle 1.562 in. Ra dius from center point of flange face; side radius of flange from center is 1.375 in.; 26 tooth internal spline h as minor dia. Of 1.563 to 1.568 in. And major dia. Of 1.754 in.; between pins 1.4718 to 1.4743 in.; pin dia. Is 0.1080 in.; i.V.D. Aluminum coated external areas; heat treated to 150000.0 p.S.I. Min.

Tensile strength, rc 34-38

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
