Overall Length:

1.550 inches

Overall Width:

0.438 inches

End Application:

Sh-2 (a) seasprite helicopter

Special Features:

width measured across flats of hex shape, located 0.655 in. From end with threads; hex shape thickness is 0.125 in.; thread class 3a; threaded end has 0.076 - 0.086 in. Dia. Hole 0.140 in. From end of pin; end opposite threads tapers from pin dia. Of 0.2490 - 0.2495 in. To 0.060 in. Spherical radius, 0.230 - 0.270 in. From end; heat treated to obtain allowable ultimate shear stress of 125 ksi

Surface Treatment:

Passivate

Thread Size And Series/type Designator:

0.250-28 unjf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
