Overall Length:

2.660 inches

Overall Width:

Between 0.990 inches and 1.002 inches

End Application:

Sh-2 (a) seasprite helicopter

Pressure Rating:

30.0 pounds per square inch and 90.0 pounds per square inch

Product Name:

Pressure regulator, ngb

Special Features:

Temperature range minus 40 deg. To plus 450 deg. F; normal operating temp. 280 deg. F; flow 2.5 gpm at 20 psid above crack; thread class 3a; width is measured across flats of hex shape

Thread Size And Series/type Designator:

0.625-18 unjf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
