Overall Length:

2.120 inches

Overall Width:

1.530 inches

End Application:

Sh-2f, sh-2d, oh-2c and hh-2 c/d aircraft

Special Features:

Thickness 0.040 inches ; two holes 0.203 inch diameter and 1.187inch diameter; measurement from centerof hole 1 to center of hole 2 is 1.000; material is 6061-t6; material specification qq-a-327 t6 temper

Functional Description:

Used to ground transmission oil system

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
