Effective Length:

24.000 inches

Core Construction:

Wire rope

Flexible Conduit Material:

Plastic

End Application:

Sh-2g seasprite helicopter

Core Diameter:

0.063 inches

Flexible Conduit Outside Diameter:

0.032 inches

Travel Distance:

7.070 inches

Features Provided:

T-handle

Product Name:

Cable assembly cargo hook release

Core Material:

Stainless steel

Special Features:

Passivated finish; operating temperature -65/+165 degrees f; bend radius of casing 2.5 inches; flexible casing nylon jacket with a polyethylene liner; slider and handle non-rotatable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524c0
