Overall Length:

8.500 inches

Overall Height:

0.900 inches

Overall Width:

1.520 inches

End Application:

Navy air crew common ejection seat (beams assembly main)

Criticality Code Justification:

Agav

Product Name:

Guide, seat pan runners main beams

Special Features:

Material specification to astm-b221

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
