Overall Diameter:

12.000 inches

End Application:

1270vs series of rate tables

Special Features:

Load capacity is 50 lbs; drive type is dc servo motor; +/-1 continuous leveling range and resolution; unlimited rotational limits; temperature/relative humidity of 32 degrees tp 130 degrees f, 20% to 85% non condensing; speed range 1-21600 deg/min, bi-directional

Material:

Aluminum

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
