Functional Classification:

Hh-4.2

Functional Description:

Portable, velocity sensitive, turbine-type rotary hydraulic system designed for rapid recovery of hook-equipped aircraft

Reference Data And Literature:

T.O. 35e8-2-7-1 mil-a-83183

General Description:

Energy capaci type 85.000 million ft/lb; pendant dim. 1.250 in. Diameter wire rope; tape-flat nylon 7.875 in. W; 0.350 in. Thk; power-37 hp gasoline engine wisconsin model mvg4d

Type/model Designation:

600w

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
