End Application:

Bak-14 aircraft arresting barrier

Functional Classification:

Hh-4.2

Functional Description:

Used to raise hook cable above runway to engage aircraft hook and lower cable below runway for passage of non-hook acft

Entry Date:

78-06-15

Reference Data And Literature:

T.O. 35e8-2-8-1 and mil-h-83265

General Description:

Dim. O/a hook cable 1.000 or 1.250 in. Dia; control system power requirement at tower and pit 1/4 kw, 115 v, single phase, 60 hz; heater system power rqmt at pit 220 v, single phase, 60 hz, 17.9 kw; air compressor power rqmt at pit 1.250 hp, 115 v, single phase, 60 hz; hook cable designed for 150.0 ft runway

Type/model Designation:

Bak-14

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
