Overall Length:

27.500 inches

Overall Height:

10.510 inches

Overall Width:

21.820 inches

End Application:

Used on fighter aircraft (f18-e/f)

Criticality Code Justification:

Agav

Product Name:

Inavy) medium altitude sensor i/r adapter

Special Features:

Equipped with lifting and securing provisions; interfaces with the medium altitude sensor (mas) and has provisions to secure the adapter/sensor assembly to the scissors lift table enabling installation/removal of the mas into and out of shared reconnaissance pod (sharp) sensor bay

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
