Wheel Quantity:

4

Platform Width:

96.000 inches

Illuminated Location:

Step

Adjustability:

Adjustable

Step Quantity:

10

Platform Height:

101.000 inches

Functional Classification:

Gg-7.1

Special Features:

Truck mounted staircase; parking brake hand/mechanical; service brakes-self adjusting, dual power, 12" x 3", vacuum booster front and rear; staircase height is hydraulically operated; platform material aluminum and steel; truck mounted staircase

Functional Description:

Used to load/unload passengers from large, transport type acft

Reference Data And Literature:

Af t.O. 35a3-16-1

Relationship To Similar Equipment:

P/n 8837-3; nsn 1730010419494

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T244-h
