Overall Length:

118.000 inches

Overall Width:

86.000 inches

Frame Material:

Steel

Tire Type:

Pneumatic

Specific Usage Design:

Radome assembly

Position Quantity:

1

Caster Quantity:

4

Caster Diameter:

13.000 inches

Features Provided:

Cradle

Drawbar Type:

A-frame

Height Adjustment Range:

+106.000/+131.000 inches

Drawbar Characteristic:

Fixed

Frame Construction:

Welded

Cradleretracted Height:

59.000 inches

Functional Classification:

Hh-2.1

Special Features:

Braking system included

Functional Description:

Used during removal/installation of radome assembly

Reference Data And Literature:

T.O. 35d3-38-2-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T277-r
