End Application:

F-106 aircraft age.

Support Material:

Steel

Lifting Mechanism:

Not included

Support Assembly Method:

Welded

Support Material Cross-sectional Shape:

Angular

Support Construction:

Rigid

Support Height Adjustability:

Nonadjustable

Sling:

Not included

Hoisting Adapter:

Included

Functional Classification:

Hh-1.1

Functional Description:

Used to install/remove computer system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T244-c
