Overall Length:

120.000 inches

Overall Height:

70.000 inches

Overall Width:

48.000 inches

End Application:

F-16c/d acft

Usage Design:

Fuel system component

Special Features:

Consist of 4 swivel casters with solid polyurethane treads. Supports the conformal fuel tank during storage, fuel tests, air and ground transporting

Functional Description:

Adapter storage I.H.

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
