Specific Usage Design:

Nose/tail rack b-52g acft

Design Type:

Hoist

Operation Method:

Manual

Lifting Mechanism:

Included

Support Assembly Method:

Bolted

Support Material Cross-sectional Shape:

Rectangular

Support Construction:

Rigid

Support Height Adjustability:

Nonadjustable

Slings:

Not included

Hoisting Adapter:

Included

Functional Classification:

Hh-1.1

Special Features:

Weight 22.5 lbs; length 60 in.; rated capacity 400 lbs

Functional Description:

Used in conjunction w/1730-01-165-3555 to remove lrus from nose and tail equipment rack on the b-52 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T244-c
