Overall Length:

198.000 inches

Overall Height:

152.000 inches

Overall Width:

209.000 inches

Usage Design:

Weapons system component

Functional Classification:

Hh-5.1

Special Features:

Four steel upright columns braced with structural steel, fittings to interface with mk-82

Functional Description:

Used for support of mk-82 bomb module loaded with bombs

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
