Overall Length:

109.000 inches

Overall Width:

49.500 inches

End Application:

Fb-111a aircraft age.

Lift Mechanism Type:

Mechanical

Position Quantity:

1

Drawbar Type:

A-frame

Height Adjustment Range:

+35.700/+61.700 inches

Drawbar Characteristic:

Fixed

Integral Lifting Device:

Included

Special Features:

Two front casters, fixed rear wheels, jack screw activated by ratchet

Functional Description:

Used to remove/install fb-111 doppler radar set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T277-r
