Overall Length:

110.000 inches

Overall Height:

60.000 inches

Overall Width:

50.000 inches

Usage Design:

Electronic equipment

Functional Classification:

Hh-1.2

Functional Description:

Used as support stand and in conjunction with jack assembly 1017u6201-g1 during removal/replacement of doppler radar set

Material:

Steel and aluminum alloy

Fsc Application Data:

Fb-111a aircraft age.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
