Overall Length:

60.000 inches

Overall Height:

8.000 inches

Overall Width:

7.000 inches

Usage Design:

Speedbrake

Functional Description:

Used to support speedbrake in extended position when installing/removing two ics control oscillators in ammo bay

Material:

Aluminum alloy and steel

Material:

Aluminum alloy and steel

Fsc Application Data:

F-15e

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
