Special Features:

Material document and classification: 2024-t351; 2.719 in. Max diameter top second end; stepped od with 2 grooves and a flange; id of first end maximum 1.379 in. Top second end maximum 1.547 in.

General Description:

Component part of nsn 1730-01-189-1266; material - aluminum; length 3.00 in.; outside diameter 2.494 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
