Overall Length:

70.000 inches

Overall Height:

5.000 inches

Overall Width:

7.500 inches

Attachment Method:

Bolted ring

Usage Design:

Electronic equipment

Functional Description:

Used to remove/install lower/upper integrated flight control modules on c-17a aircraft age.

Material:

Steel

Material:

Steel

Fsc Application Data:

Boom mounted aerial platform

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
