Design Type:

Self-contained

Movement Type:

Mobile

Base Shape:

Rectangular

Rated Vertical Capacity:

35.0 tons

Hydraulic Lifting Distance:

18.000 inches

Extended Height:

28.000 inches

Screw Extension:

Included

Pump Type And Quantity:

1 pneumatic

Pump Relationship To Lifting Device:

Separate

Wheel Removal Crane:

Not included

Retracted Height:

10.000 inches

Special Features:

2 speed manually operated pumping unit attached with 10 ft hose to the jack; the lift consists of 3 rams and an extension screw, all encased within an outer cylinder which is integral to the base; a transport dolly is provided for movement of the jack; overload rating 77,000 lbs

Functional Description:

Portable, self contained manually operated hydraulic jacking system used for vertical lift of loads up to 35 tons (70,000 lbs)

Reference Data And Literature:

T.O. 35a2-2-109-1

Supplementary Features:

Manufacturers name: 35 ton portable jacking unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T244-d
