Overall Length:

48.000 inches

Overall Height:

12.000 inches

Overall Width:

24.000 inches

Attachment Method:

Cradle

End Application:

C-17a aircraft

Usage Design:

Aircraft engine accessory

Functional Classification:

Gg-7.2

Functional Description:

Used in conjunction with loading trailer to remove/install integrated drive generators (idg) when engine is on the support pedestal or transportation trailer

Material:

Aluminum alloy

Material:

Aluminum alloy

Relationship To Similar Equipment:

SIMI-LA-RTO-NSN1

Surface Treatment:

Paint

Surface Treatment:

Painted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30600
