End Application:

C-17 aircraft engine

Support Material:

Aluminum

Specific Usage Design:

Remove/replace core thrust reverser acoustic duct

Lifting Mechanism:

Not included

Support Assembly Method:

Welded

Support Material Cross-sectional Shape:

Irregular

Support Construction:

Rigid

Support Height Adjustability:

Nonadjustable

Slings:

Not included

Hoisting Adapter:

Included

Functional Classification:

Hh-1.1

Special Features:

Slings, core thrust reverser acoustic duct

Functional Description:

Used to remove/replace the acoustic duct from the core reverser afterbody assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T244-c
