Overall Length:

7.000 inches

Attachment Method:

Bolted ring

Overall Diameter:

6.500 inches

End Application:

Used on f100-pw-200, -220, -220e, and -229 engines

Usage Design:

Aircraft engine

Special Features:

Nain: fixture, lift-rear compressorrotor, rear hub

Material:

Steel, corrosion resisting

Material:

Stainless steel

Relationship To Similar Equipment:

REPL-AC-ESN-SN17

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30600
