End Application:

V-22

Special Features:

The v-22 aircraft is equipped with eight tiedown points. There are six tiedown points located on the fuselage (three on each side) and two tiedown points located on the landing gear (one on each side). A requirement exists for a locking device and chain to secure the v-22 aircraft to land-based ground fittings when parked outside the hangar.

Functional Description:

The adjuster assembly is a tension type tiedown/locking device with a working load capacity of 10,000 pounds.

Shelf Life:

N/a

Unit Of Measure:
