Overall Length:

55.000 inches

Overall Height:

57.000 inches

Overall Width:

100.000 inches

End Application:

U/o p/n 17g233283-1; f117pw100

Usage Design:

Aircraft engine

Special Features:

Suggested name-kit, rail-engine transfer; function: the rail kit is used between the storage trailer, p/n 17g233283-1 and the transportation trailer (t90-f-503) to permit rol transfer of a f117-pw100 engine build up unit

Material:

Aluminum alloy and steel

Material:

Aluminum alloy and steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30600
