**Overall Length:**

18.000 inches

**Overall Height:**

44.000 inches

**Overall Width:**

24.000 inches

**Attachment Method:**

Bolted

**Usage Design:**

Aircraft engine

**Functional Classification:**

Gg-7.1

**Functional Description:**

Used in conjunction w/serd 010112self propelled servicing platform to perform tasks under the engine cowl

**Material:**

Aluminum alloy

**Material:**

Aluminum alloy

**Entry Date:**

03-05-05

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A30600
