Overall Length:

95.000 inches

Overall Width:

63.000 inches

Frame Material:

Steel

End Application:

C-17a

Lift Mechanism Type:

Hydraulic

Wheel Quantity:

4

Tire Type:

Pneumatic

Specific Usage Design:

Aircraft apu

Drawbar Type:

Pole

Drawbar Characteristic:

Fixed

Integral Lifting Device:

Included

Frame Construction:

Welded and bolted

Product Name:

Fixture, installation and removal apu

Functional Classification:

Hh-1.5radlgserd number240230

Functional Description:

Remove/replace apu from aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T277-r
