Attachment Method:

Bolted and clamp

End Application:

C-5m rerp

Usage Design:

Aircraft engine

Functional Classification:

Hh-1.1

Special Features:

Requested name-c-5m pylon mounting base

Functional Description:

Allows mounting base to mate with pylon sling for stable installation/removal of pylon from aircraft wings

Material:

Steel

Material:

Steel

Reference Data And Literature:

Serd 03-01-0004

Surface Treatment:

Paint

Surface Treatment:

Painted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
