Fabrication Method:

Welded

End Application:

C-5m

Specific Usage Design:

Rfi cf6-80c2l1f engine

Transport Method:

Attachment for trailer

Mobile Unit Designation:

C-5m base, shipping, air/truck engine p/n agse-e149-g01

Criticality Code Justification:

Alxz

Product Name:

C-5m cradle, engine

Special Features:

Item is used in combination with p/n agse-e149-g01 or p/n am1994r whichstock listed separately and is part of a boot jack system; cradle weight is listed as 1080 lbs

Functional Description:

Shipping/storage and installationor removal of engine

Material:

Steel

Material:

Steel

Reference Data And Literature:

Serd no. 03-01-0009

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T244-j
