Overall Length:

86.625 inches

Overall Height:

36.000 inches

Overall Width:

48.000 inches

End Application:

F100-pw-220 engine a-7 aircraft support

Caster Quantity:

3

Caster Type:

Swivel

Special Features:

Rotor assembly hand truck

Functional Description:

Used to transport the front compressor drive turbine rotor assembly of the tf33-p-3 aircraft engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T277-a
