Overall Length:

230.000 inches

Overall Height:

60.000 inches

Overall Width:

100.000 inches

Frame Material:

Steel

End Application:

C-17a aircraft

Wheel Quantity:

4

Tire Type:

Pneumatic

Specific Use:

Used for transporting f117-pw-100engines

Wheel Diameter:

15.000 inches

Parking Brakes:

Not included

Features Provided:

Rails

Drawbar Type:

Pole

Frame Construction:

Welded

Special Features:

Roller adapters on the engine cradle clamp onto trailer rails. Trailer is equipped with 90 inch rails

Reference Data And Literature:

T.O. 35d3-3-80-1

Relationship To Similar Equipment:

Replaces 1740-01-435-1686. All assets will be modified to new configuration

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T277-a
