Overall Length:

16.000 feet

Overall Height:

6.600 feet

Overall Width:

6.800 feet

End Application:

Several applications

Engine Manufacturer Name:

Ford

Transmission Type:

Standard

Engine Type:

Gasoline

Heating Capacity In Btu Per Hour:

10000.0

Personnel Capacity:

2

Drawbar Pull:

5000.0 pounds

Special Features:

Draw bar pull-5, 000 lbs; drive speed 30 mph max; turning radius 16 ft outside; suspension-solid live axles with progressive springs and heavy-duty shock absorbers on front and rear; brakes-4 wheel hydraulic disc brakes with vacuum assist, parking break is mechanical disc with an orscheln lever; visibility-windshield id nongrare and rear window is clear of obstructions

Supplementary Features:

Kgvw rating 14, 500 lbs; gradeability-15%; frame-high strength c12 and c6 structural steel channel; engine-6cyl and 107hp; fuel tank-25gal capacity; controls-hydraulic power steering, keyless ignition with anti-restsr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T277-v
